

Symbion Accelerator

Provides two world-class business development programs to help you grow your company!

Are you looking to expand internationally?

GazelleGrowth offers hands-on support and know-how for the internationalization of small to medium-sized innovative Danish companies with high potential and growth ambitions.

This action-oriented **program helps selected companies develop a feasible international market entry strategy** with the provision of a dedicated business consultant, access to an international network of industry experts and, customers, and a proven strategy development framework.

GazelleGrowth is complementary to the internal functioning of a growth company.

Who is it for?

Innovative growth companies with an established customer base in Denmark with a minimum turnover of 2 million DKK , and who are looking to internationalize.

How does it achieve results?

Results are attained through a combination of camps run by international experts, one-on-one meetings with world-class experts and industry experts, operational support & market intelligence from the Danish Foreign Ministry, and hands-on support from a dedicated business consultant.

Are you looking to bring a new product to market?

Accelerace offers hands-on support and know-how for start-ups and small companies seeking to increase the success of their product development and commercialization efforts.

This **program provides selected companies with a commercialization strategy** enabled by insight into customers, markets and competitors, as well as practical tools, a proven methodology and a dedicated business consultant.

Accelerace enables companies to meet investors, customers and/or partners.

Who is it for?

High-potential, small (less than 15 employees) companies with an internationally innovative product/service in the proof-of-concept/prototype phase, looking to develop a commercialization strategy for a beachhead market.

How does it achieve results?

Results are attained through a combination of camps run by international experts, Connect springboards, networks to business and technology experts, and hands-on support from business consultants and MBA students.

What are the benefits?

Not only is the **program free**, it provides the following concrete benefits:

- World class strategic tools and frameworks provided by IMD, UNC-Chapel Hill, MIT, and Chasm Institute
- Dedicated strategic support by business consultants to work closely with your management team
- Access and face time with key international industry experts from your industry
- Identification of international customers in your selected market segment and other market research

How long does it last?

GazelleGrowth runs for an intensive 4-month period, followed by on-going support for 12 months while companies pursue the selected strategy.

Next steps!

We are looking for 10 companies to participate in Autumn 2009 (Oct-Jan)
