At Symbion Science Park
Fruebjergvej 3
2100 København Ø

Please register for this event at your desired location by sending your name, company name and contact details to info@gazellegrowth.com

We invite you to learn more about Symbion Accelerator's two international business development programs! Due to Danish government sponsorship, both programs are free for participants.

In view of the open application process, two information days will be held for interested companies, including the following items:

Gazelle Showcase:

Hear the experience of some of our past participants!

Presentation of the Programs:

The Secretariat will give a brief presentation on the programs, benefits and deliverables.

Q & A Session:

Companies present are welcome to ask questions in the plenum as well as meet individually with the Secretariat to discuss program fit.

...we have gained years of experience in a matter of months!

Martin Holm, VP of Sales, CapaSystems, GazelleGrowth Round 1 participant

More information on the two business development programs:

GazelleGrowth...

is a new action-oriented program that provides hands-on support and know-how to selected Danish growth companies who wish to expand to international markets and realize their true growth potential. GazelleGrowth provides, among other things, a strategic framework for understanding your opportunities and competitive landscape in order to select your first US beachhead, individualized market research including face time with an industry guru and other experts, and an extensive network offering door openers to international customers, partners and influencers at the decision-making level. GazelleGrowth — Accelerate your international growth! For more information, www.gazellegrowth.com.

“...We are much sharper now on who are customers are, what value we provide, and which sales arguments will convince them to buy!”

Klaus Moth, CEO, LeanEco, Accelerace Round 1 participant

Accelerace...

offers hands-on support and know-how for start-ups and small companies seeking to increase the success of their product development and commercialization efforts. This program provides selected companies with a commercialization strategy enabled by insight into customers, markets and competitors, as well as practical tools, a proven methodology, MBA intern, and a dedicated business consultant. Companies leave ready sell directly, implement a partnership strategy, or raise funding. Accelerace—Your gateway to growth! For more information, www.accelerace.org.

Applications for both programs are accepted until 1 September.
